EDUCATION

KIT-Kalaigarkarananidhi Institute of Technology, Coimbatore - Tamilnadu, India

2023 – 2027

B.Tech. Artificial Intelligence & Data Science, Pre-Final year

Current **CGPA: 7.65/10.0**

Coursework: Computer Networks, Operating Systems, Database Management Systems, Data Structures & Algorithms, Machine learning

PROJECTS

Enisai | python – flask | Librosa | MFCC |

[Link](#) | Jun 2024

- Built a Enisai – AI Voice-Based Song Recommendation System.
- Developed a clean frontend interface for smooth voice upload, integrated with a Flask/FastAPI backend via REST APIs.
- Implemented seamless data flow using Axios for API communication and MongoDB for efficient data

Editdraw | React , HTML5 Canvas, Tailwind CSS | FastAPI |

[Link](#) | Mar 2025

- Developed a web-based editors platform to showcase their talents and work and get hired using React with TypeScript and a shared client-server architecture.
- Implemented a responsive UI styled with Tailwind CSS, enabling clean and consistent design across devices.
- Built the server side with Node.js to handle user data, sessions, and interactive content, integrating shared modules for client and server.
- Integrated cloud storage and optimized media compression for fast uploads and smooth editing performance

QuizSprint | React, Tailwind CSS | FastAPI, Python |

[Link](#) | Feb 2025

- Engineered a scalable full-stack quiz platform supporting dynamic question rendering and real-time score computation.
- Implemented a highly responsive UI using React and Tailwind CSS, reducing layout inconsistencies across screen sizes.
- Developed FastAPI-based backend services for quiz management, answer validation, and performance tracking.
- Optimized API response flow to ensure fast and consistent user interactions during timed quizzes.

TECHNICAL SKILLS

C	OS	Git	Node.js	SQL
C++	React.js	Github	JavaScript	OOPS
Python	MangoDB	ML Algorithm	Docker	DBMS
Java	Kubernates	Scikit-learn	Seaborn	Numpy

CERTIFICATIONS & COURSES

Coursera – Machine Learning Master	2024
Coursera – Data Engineering Master	2025
Coursera – Platform Administration Master	2025
NPTEL - Programming with Generative AI	2025

COMPETITIVE PROGRAMMING

Leetcode : Max rating - **1699** | Solved problems: **260+** | Top **13.17%** globally | Badges : **2** | Highest Rank : **598**.

Codeforces : Max rating - **970** | Position: Newbie | Highest rank : **752**.

Codechef : Max rating - **1602** | Position : **3** Star | Solved Problems : **200+** | Highest rank **649**.

Global Rank in Codechef : **999** | Solved **200+** problems in **DSA**.

ACHIEVEMENTS

- LeetCode: Practicing Data Structures & Algorithms regularly, focusing on Arrays, Strings, Binary Search, Linked Lists, Trees, Graphs, and Dynamic Programming. Strengthening problem-solving skills. practical application of data analysis and machine learning techniques.
- CodeChef: Solved 550 problems, achieved 3★ rating with 1500 points, participated in 75 contests, earned Contest Contender (Silver) and Problem Solver (Bronze) badges, with top contest ranks.
- Completed a 20-hour AWS course, gaining strong theoretical understanding of cloud computing concepts, core AWS services, and deployment fundamentals
- Codeforces: Achieved Newbie with a peak rating of 699, solving 23+ problems across multiple contests, Actively participating in contests, solving algorithmic problems across Greedy, Implementation, and basic DP topics to improve speed and accuracy in competitive programming.

VOLUNTEERING & LEADERSHIP

- Acted as a Student Mentor at a 36-Hour Hackathon, supporting teams with technical guidance, ideation refinement, and real-time issue resolution.
- Led the College Volleyball Team as Team Lead, demonstrating leadership, collaboration, and performance under pressure in competitive environments.
- Teaching competitive programming fundamentals and Coding platforms to junior students, delivering problem-solving sessions and guided practice to strengthen algorithmic thinking and coding proficiency.
